Quotes about emilia in othello

Question: What is the relationship between Iago and Emilia? Iago uses Emilia as a tool. She is only taken care of by him as long as she can use it. Iago has no desire or ability to love anything. Emilia seems to love Iago with a kind of passionate devotion. Her only purpose seems to be to do his will, as seen by her theft of handkerchiefs, and her words at the time are: I have a job, and don't give Iago; he knows what he does with it, heaven doesn't me. This great love is a feature of Emilia's character redemption, even though its purpose is not worthy, and she is morally far above Iago. Sure we can look back on Emilia in her girlhood, released from the color change, Smother, Iago is soiling her. Can't find most touch of sorrow for this change in her words that the disease we do, their illness (husband) tells us so? Then the bond between Iago and Emilia is an instinctive evil bond in the case of one, and the bond of evil is obtained in the other case. Return to the main page of the Othello test question. Let them all, to heaven and to man and the devil, all, all, all, shout shame against me, but I speak. Heaven knows what he does with it, I'm not (3.3. Emilia says this line after she picks up Handkerchief Desdemona) Drop, plan to hand it over to Iago. This quote shows that Emilia at this point feels little moral responsibility and may actually not know the details of what her husband is plotting. Later in the play, she will suffer devastating damage to recognize how her actions contributed to a series of events that ceded Desdemona's death. Tis has not shown us a man for a year or two. (3.4). Emilia explains to Desdemona that her friend is only newly married and may not yet understand her husband's nature. The quote suggests that Emilia has only gradually learned who Iago really is, and that she is trying to encourage her friends not to be more cautious and ignorant. They are never jealous of the cause, but they are jealous because they are jealous. (3.4.) Here, Emilia and Desdemona discuss whether Othello will be satisfied with Desdemona's innocence. Desdemona thinks she can prove her faithfulness to her husband, but Emilia is more sarcastic and now that Othello has become suspicious, he believes that he will never be able to fully trust his wife again. Emilia's insight may come from her less happy relationship, but it turned out to be true. If any miserable person puts this in your head, heaven will undo it with the curse of the snake. (4.2.) Here Emilia hunts down Othello in doubt of Desdemona's faithfulness. Ironically, Emilia immediately hits the truth that Othello's suspicions come from someone else instilling these ideas. But she doesn't really know that she is her own husband who is the one who curses here. The quote reflects the important theme of deception and shows that even married couples may not really know much about their spouses.
